Government of Mysore.

Sir,

I have the honor to submit an extract from the Proceedings of the Municipal Board of the 15th Instant, concerning the well in regard to which B. Krishnaiyar has filed a suit, and to solicit the sanction of the Government to make over the well to the Plaintiff for a sum of Rupees one hundred and fifty, which he is willing to pay.

Chief Secretary 5388/15-3-88.
Dewan's Proceedings No 3393/60 of 13th August 1888.

2.— I have made enquiries regarding the well, and I find that hardly any body uses it to—

to draw water from, as it is a couple of hundred yards from the large tank, is rather deep, and only contains a couple of feet of water at the best of times. The bottom is rocky and a good deal of money would need to be spent to deepen the well so as to secure a good supply of water, which would not even then be much used by the towns people.

3.— The Members of the Board fix 100 Rupees as a fair price, but looking to all the circumstances of the case, and the inconvenience of carrying on protracted litigation regarding a now little used well, I would fix on Rupees 150 as a proper amount to be found by the Plaintiff, who has acquired the surrounding lands

Extract from the Proceedings of the Smiths Town Municipal Board meeting held on Tuesday the 15th October 1889.

Re Well to S. I.

× × ×

With regard to the well respecting which Mr. B. Krishna Iyengar has filed a suit against the Municipality it was unanimously agreed that a fair price might be fixed, and all municipal rights in and to the well sold to Krishna Iyengar as there was very little water in the well, and the bottom was composed of hard rock which rendered it useless to the public in its present state.

Dated 8th November 1889

To
The Chief Secretary to
Government of Mysore
Bangalore.

Sir,

In reply to the Proceedings of the Government No 6102/196 dated 2nd November 1889 requesting me to report whether a new well can be constructed at a cost of Rs 150, to be recovered from B. Krishna Iyengar for the well under dispute, I have the honor to state that it is not proposed to sink a new well immediately for the use of the public, as four large ones were constructed by the Municipality in convenient localities only last year, and another does not appear to be necessary just now. The cost of sinking a new well, yielding a good supply of water, will doubtless be more than

the

the price fixed on the above
by and useless one to be sold
but the amount to be realized
will be utilized in constructing
steps to the Balanakallay,
and otherwise improving this
(source of water supply) to
which a large number of the
Tiruvini town people now
resort.

I have the honor to be

Your most obdt Servant.
